Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	On Todays date I performed a complaint investigation on the Animal Lovers Assistance League Animal Shelter. The complaint was sent to Mr. Hunter from Ms. Jennifer Brown in an E-mail. Ms. Brown works for PETA and according to Ms. Brown, a visit by a complainant who visited the shelter March 6th, 2010. The complaint is about the overall conditions of the shelter. There were 2 cages stacked on top of each other in the isolation room. The cages held 2 cats in each cage with no elevated resting surfaces. There were also no resting surfaces in the other cat cages. According to the complaint 50 cats were roaming freely in the cat adoption room while the staff were cleaning the cages.	
	There were several bags full of garbage and piles of junk were observed a few feet from a dog enclosure.	
	There were approximately 18 cats housed in the isolation room many of whom exhibited signs of illness.	
	There were also issues with dogs in pens with only a top on the dog houses and one dog housed in a crate.	
	In reference to the complaint of (2) cages stacked on top of each other. I observed the stacked cages, but there was only (1) cat in each cage. The cages had food, water and a litter box. The cats had ample room to rest.	
	In reference to the cats running freely in the adoption room, I did observe the cats running in the room. However there were (2) employees cleaning the cages. Once the cages are cleaned the cats are returned to their cages. The cleaning was completed before I left, and the cats were back in their cages.

Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	I observed no garbage or piles of junk near any enclosures.	
	In reference to the cat isolation room, the cages contained one cat per cage. The cats are being treated and cared for. I requested a copy of the medication log for the cats in isolation and I obtained a copy. The cats housed in isolation are being treated.	
	The dogs are placed in outside runs while the inside enclosures are being cleaned. Once the enclourses are cleaned the dogs are returned inside.	
	I observed no dogs chained outside.	
	There were (4) dogs mentioned about being outside all the time.	
	1) Dart - A black mix has been adopted.	
	2) Tiny - A Great Dane, is with Great Dane Rescue.	
	3) Larry - A small white dog has been adopted.	
	4) Roxie - is still at the shelter however is housed inside the shelter.	
	There was also mention of a dog with bowed legs. That dog is still at the shelter and is being treated. I requested a copy of the medication log for "Bow" and recieved the medication log. The dog is recieving calcium for the bowed legs.

Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	In reference to the tarps on the outside kennels, I found one tarp loose and that was repaired. The outside kennels have 6" of gravel. There is doghouses in each outdoor kennel.	
	There were 6 employees working today. The only inadequacies I observed was two bags of cat food on the floor which the staff picked-up.	
	The shelter is well maintained, and I didn't observe any isshes with-in the compliant letter other then a tarp being loose, everything else looked o.k.	
	The records were in good order, and pertained all the correct information.
