Narrative Explanation

Annual inspection performed today.

Item to correct:

.0204 Primary Enclosures / Sound Repair - D-18 the area on the all that was patched earlier this year has become damaged. Manager advised a work order has been submitted to county maintenance.

Comments:

Since the last inspection there have been several noted improvements. Two outdoor exercise yards have been created. Three large overhead industrial fans have been installed under the shelter for the outdoor kennels. The amount of cat enclosures has increased. The shelter is now using better quality enclosures, many equipped with built in resting platforms. The cat housing areas have been rearranged in a manner that aides in preventing the spread of disease. A veterinarian now makes a weekly visit to the shelter to assess health and temperament issues with the dogs and cats. The outside area of the shelter is notably cleaner and more organized. An outdoor building has been brought in for the Animal Control Officers to store their equipment in. The outdoor food storage building was found in a very neat and clean manner today. The manager advised that the shelter now only uses one brand of food so there is less diarrhea from the frequent change in food. The outside grounds have been mowed - the yards are much improved.

The new items of inspection have been reviewed and it is noted that all are acceptable.

Transportation standards have been discussed with the manager. At this shelter the animal control trucks are under the sheriff's department. The shelter has one truck for transporting animals to the vet's office or adoption fairs. Advised manager the county needs to be aware that the transportation standards will be enforced and to start considering what type of unit will meet their needs and the AW requirements.

Re-inspection in 30 calendar days on item .0204.
