Ashe County Animal Control	Ashe County	Crumpler	NC

Narrative Explanation

Followed up with facility today after previous disapproved inspection;

Improvements since previous inspection;

1) Cross contamination barriers have been installed and are adequately preventing cross contamination. Good work here.

Inadequacies noted at the time of inspection include;

(0202,0204)

1) Floors/Walls throughout the facility remain in chipped/peeled condition. Condition of the flooring continues to decline. This inadequacy remains from previous disapproved inspections on 7/1/14, 1/5/15, and 3/16/15. A bid was provided in the summer of 2014 for the repair/resealing of the floors/walls throughout the facility. Money has been approved in this facility's county budget per Shelter Director, Joe Testerman. Repaint/Reseal damaged floors/walls. Photographs were taken of the continued declination of the condition of the floors.

2) A significant odor was again noted upon entry into the cat room. Increase ventilation in this room. This inadequacy remains from the previous inspection dated 3/16/15. The contractor arrived at the facility during the inspection to measure for windows in the cat room.

3)One light is inoperable at the entrance from the cat room into the k9 enclosure area. Repair/Replace damaged lighting. This inadequacy remains from the previous inspection dated 3/16/15.

Time lines have been provided since 7/1/14 for the completion of the flooring project however these time lines have expired without the inadequacy being corrected.

Inspection Results	Date of inspection
Approved	Jun 3, 2015

Ashe County Animal Control	Ashe County	Crumpler	NC

Narrative Explanation

The approval of today's inspection is contingent that floors throughout the facility are repaired/sealed within 30 days.

The basis for the approval of today's inspection is due to the improvements on the outdoor enclosures that are within compliance of the Animal Welfare Act at the time of inspection. The outdoor enclosures may be utilized as they are within compliance. Suggested hanging tarps to prevent rain from blowing into outdoor enclosures.

Indoor enclosures at this facility MAY NOT be utilized until they can be brought into compliance with the Animal Welfare Act. All dogs were removed from these enclosures at the time of inspection and moved into the outdoor enclosures. Facility taped off the indoor enclosures to indicate their compliance with not utilizing these enclosures until they have been repaired/resealed.

☐ check here if a euthanasia inspection form is attached
