Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	I Performed a courtesy inspection on 5/26/06. At that time the following issues were addressed. Concrete flooring needs to still be sealed. Also need to put a sink in the kennel area to clean food & water bowls. Right now using plastic garbage cans. Need to utilize hot water to clean the bowls. The ambient temp was 70°. The kennel cage doors need repair. Some are rusted. Did see evidence of rodent problem in the shelter. The shelter is in the process of rebuilding. We need a time table for the following issues.	
	1. Support beams are rusted need repair. Also the doors need repair or replacing.	
	2. Need hot water to clean.	
	3. Kennel door gages need repair or replacement ASAP	
	4. Control rodent problem.	
	The records on all animals impounded was OK. I observed no signs of illness. The dogs appeared ok and not under distress. I would suggest using another solution instead clorex to clean. The clorex is causing the rusting.
