Magnolia's Bed & Biscuit, LLC	Bryan Ball	Leland	NC

Narrative Explanation, continued

I performed a "random" inspection at this facility today.

I noted the following corrections need to be made:

1. .0102 Records / Veterinary Care - I noted the name and strength of the medical is not being logged on the daily medical log. I also noted the owner was not providing this information for the kennel. The kennel management need to make sure the client knows to provide this information and that it is logged each time the animal receives the medication.

2. .0204 Primary Enclosures / Surface Impervious to Moisture - I noted two enclosures in the cat room that the floor materials are damaged. These are ! & 2 on the second level of the bank of cat cages. Replace this material so all areas the cats are in contact with are impervious to moisture.

3. .0204 Primary Enclosure / Sound Repair - I noted enclosure #11 & #24 in the metal enclosure room have rusted, jagged edges. These are noted not to be used until replaced.

4. .0207 Sanitation / Enclosure Sanitized 2 X @ Day - I noted there was dried cat vomit and cat hair balls behind the bank of cat cages. Cats at this facility are allowed to have the entire room for exercise so there is access to the area behind the cat cages. Make sure the room and cat cages are properly cleaned and sanitized.

Comments:

I noted an open box of dog treats. This was corrected during the inspection. Management is advised to keep all open boxes / bags of treats or food in a closed container.

The owner advised that he is aware of a damaged molding in one of the k-9 suites and is having it replaced. I discussed with the owner the need to start looking at all of the metal k-9 kennels and come up with a plan to address the deteriorating metal issues are coming.

This facility has 30 calendar days to correct this identified areas. At some point in time I will return after the 30 day period for a re inspection of this facility.
