Narrative Explanation

Annual inspection performed. Cleaning was in progress at the time of my inspection. Overall the husbandry was excellent. The facility and records were very well organized.

The following inadequacies were found at the time of my inspection:

1. (0204) In the outside play yard there were 8 dogs unsupervised. NCAC 52J .0204 PRIMARY ENCLOSURES reads as follows: (e) If more than four dogs are housed in a common area or enclosure, then there must be at least one person supervising each 10 dogs housed within each enclosure or common area.

2. (0202) Air filters need to changed throughout the building. In all of the dog kennels there was visible buildup coming out onto the covers. NCAC 52J .0202 INDOOR FACILITIES reads as follows: (b) Indoor housing facilities for dogs and cats shall be adequately ventilated to provide for the health and comfort of the animals at all times. The facilities shall be provided with fresh air either by means of windows, doors, vents or air conditioning and shall be ventilated so as to minimize drafts. Air flow shall be adequate to minimize odors and moisture condensation.

3. (0210) At the time of my inspection proof of rabies vaccination could not be located for Batman, who was brought in on 11/5/15 from the Davie County shelter.

4. Ensure that all cages have a kennel card that identify the dog/cat that is in that cage. There were 2 kennels in Kennel 2 and almost all of the kennels in kennel 3 that were missing kennel cards or any type of identification for the dogs.

Overall the facility looks great. Continue to repair the floors as needed if paint is chipping or if an area is not sealed. Gloria stated that they are looking at replacing/repairing the floors after the new year.
