Narrative Explanation

I performed a "Follow-Up" inspection at this facility today.

I noted the following items have been corrected:

1. .0203 Outdoor Facilities / Surface Impervious to Moisture - I noted the wood legs on the human resting benches in the k-9 outdoor exercise yard have been painted. The Director advised epoxy paint was used.

Item still not corrected:

1. .0202 Indoor Facilities / Surface Impervious to Moisture - I noted from the last inspection (9/22/15) there were areas of chipped epoxy on the k-9 quarantine floor isle and of row 4. The Director advised these areas have not been fixed yet because there have been a large number of long term care dogs housed in the identified areas and these chipped areas must be kept dry for a certain number of days in order to prepare the floor and apply the epoxy. The Director advised today contact has been made with the floor repair company and when the repair date is set he will notify me. I advised the Director I would extend the follow up inspection another 60 calendar days.

There were no dogs or cats to be euthanized during this inspection.

This facility has 60 calendar days to correct item # .0202. I will return at some point in time for a follow up inspection.

☐ check here if a euthanasia inspection form is attached
