Sanford, NC 27330

Dear Mr. Iceman,

On or about September 21, 2009 you were sent a **Notice of Warning and Voluntary Suspension of Gas Chamber Operation Privilege** because your CO chamber did not have a yearly inspection as required under NCAC 52J .0601 et seq. You agreed to voluntarily suspend use of the CO chamber until an inspection report was sent to this office and you received noticed that you could resume use of the chamber.

The Animal Welfare Section received a copy of the required yearly inspection report dated September 24, 2009 on the letterhead of Shield Engineering. A review of the report shows that your CO chamber was certified by an Industrial Hygienist to meet the requirements of the applicable NC Administrative Code.

This letter serves as notice that you have fulfilled the requirements set forth in the Warning Letter and that you may resume use of your CO chamber as long as it meets the requirements of the NC Administrative Code. A copy of this notice will be sent to you by both FAX and by US mail.

Sincerely,

Lee Hunter, DVM
Director, Animal Welfare Section
