Narrative Explanation

I performed an "Annual " inspection at this facility today.

I was advised by the operations manager that since the last inspection a location has been selected for an new indoor / outdoor shelter, a outdoor storage building has been added at the existing location for use as an office only, concrete has replaced the dirt in front of the quarantine kennels along with new fencing around that area.

I was also advised that the operations manager is on site daily until 4:00 PM which allows the dogs to have more interaction time with the volunteers and an additional feeding has been added in the afternoon routine.

I noted the following items need to be corrected:

1. .0204 Primary Enclosures / Sound Repair - I noted the bottom pole on the gate of Jade's kennel has a rusted hole. This gate needs to be replaced.

2. General Statute 19 A - 32.1 (i) Provide government ID for all animals released for adoption or return to owner. Presently the shelter is obtaining the government ID number. A photo copy of the ID is required and to be kept with the animals' file.

I noted the kennels and yards were clean, the records meet the animal welfare requirements and the dogs appear well fed and cared for. I reminded the manager to keep the chewed plastic areas on the dog houses and accessories made smooth to aide in cleaning.

The shelter has 30 calendar days to correct items # 1 & # 2.

☐ check here if a euthanasia inspection form is attached
