Narrative Explanation

I performed an Annual inspection at this facility today. I advised the director the office phone number has changed to 919-707-3280.

I noted the following items need to be corrected:

1. .0202 Indoor Facilities / Surface Impervious to Moisture - I noted today there are small areas on the k-9 quarantine floor isle and isle way of row 4 that the epoxy has been damaged. The director advised that when air conditioning repairs where made the heavy ac units scratched the floors. The director also advised the flooring company has been notified and the repairs should be made within the next 60 days. The shelter floor must be kept dry for a period of 3 days before the work can be done.

2. .0203 Outdoor Facilities / Surface Impervious to Moisture - I noted in the outdoor play yard that the wood legs on the human resting bench need to be painted and the wood training benches need to be painted as well. A paint may be used to seal this wood but if chewing is noted on these items they will have to be removed from the play yard.

Comments:

I noted that since the last inspection the shelter has been working to create a "catio" which is an outdoor exercise / enrichment area. This area will join the cat adoption room. All surfaces are impervious to moisture. The director understands that the maximum number of cats allowed in this room at one time is 12.

I advised the director to modify the intake form in the area that asks "has this animal bitten in the past 10 days?" because in cases of unknown the yes or no is left blank. By leaving these questions blank it appears the question is not answered. Recommend adding "unknown" in section (h).

I will conduct a follow up inspection in 60 calendar days (11/23/15).

☐ check here if a euthanasia inspection form is attached
