Narrative Explanation, if needed

New inspection performed. House remodeled into grooming/boarding/daycare facility. Wire crates, stack cages and 2 metal kennels provide indoor enclosures in boarding area. Separate room comes off of this room into indoor play area. This area now is drywall with wooden baseboards (0202). Walls need to be covered with material impervious to moisture (suggested FRP board) and wooden baseboards need to be covered with material impervious to moisture or replaced. I will allow this room to be used as long as the dogs are supervised until this is done. Install gate between kitchen and play room to close off access to kitchen area.

Narrative Explanation, continued

Outdoor play area only has single fence therefore dogs will have to be supervised at all times in this area. Wooden steps and ramp leading into facility and to outside play area must be sealed and rubber/plastic matting put down. For records boarding contract and commingling agreement is needed. Implement sign-in/sign-out sheet.

Will return in 60 days to follow-up on indoor play area.

Ok to license. Change enclosure count to 8 and maximum number of dogs to 12 (I received revised application). Boarding may begin as soon as license is issued and paperwork is in place. Requested that owner email me copies of paperwork when complete.
