Narrative Explanation, if needed

At the time of inspection facility is clean. Isolation is intact. Construction was underway for completion of 12-15 indoor enclosures. Records are in order.

Inadequacies noted include;

1) Floors throughout facility are in need of sealing. Repaint/Reseal damaged flooring (0202, 0204).

2) Side play yards have several bare areas. Add gravel to play yards. (0203)

Pet Soup Boarding and Groomin	Joelle Warren	Asheville	NC

Narrative Explanation, continued

3) Walls throughout the cat colony room and in several locations throughout the facility where crates are placed against/near the wall are not impervious to moisture. Add material such as FRP to these surfaces to insure they are impervious to moisture (0202, 0204).

4) Several bags of open food were located in the food storage area. Store all food in sealed containers. (0201).

Plans to move forward include;

1) Construction of new indoor enclosures is expected to be complete in 3 months (end of April 2014)

2) Gravel to be added to play yard by April 2014.

3) Long term plans include resealing floors throughout the facility and adding FRP (or another material impervious to moisture) to all surfaces that are not impervious to moisture. Additionally all block walls will be sealed with an approved sealer. This will be completed in sections until the entire facility is in compliance. Management provided a timeline of 90 days for each section beginning with the "Cat House".

Approval is contingent that plans continue to move forward on inadequacies noted at today's inspection.

Overall facility is well organized and no sign of illness/injury was noted in the general population. Keep up the good work here.

Management is e-mailing a floor plan for facility in order to label sections as we move forward.
