Narrative Explanation, if needed

At time of inspection (8:28am) inadequacies to address include 1) a sufficient amount of waste was noted in both the indoor and outdoor enclosures. Waste should be removed from enclosures twice daily (0207). 2) Hair and debris noted scattered throughout facility. Sweep to remove debris on a routine basis (0207). Records on the 2 animals boarding at the time of inspection are in order. Food is kept in sealed containers. No sign of illness/injury in the general population. No other inadequacies were noted at the time of inspection. Chain link appears to be in good repair. Keep an eye on corners for sharp edges that might be hazardous to the animals.
