Narrative Explanation

Performed annual inspection. The facility was clean, there was no odor, and there was no sign of illness in the general population. Since last inspection adequate flooring has been add in the Cat Colony, front reception, and the meet and great rooms. There are continuing plans to seal the floors in the dog general population.

Inadequacies noted are outside enclosures have bare concrete that needs to be sealed to be impervious to moisture (203,204) There is rust on enclosure gates, cat condos, outside enclosure walls, and on structural support beams inside of the enclosures (202,203,204) Cracks in the concrete need to be sealed to be impervious to moisture (203,203,204) Bare block inside of the play area inside and outside needs to be sealed/painted (202,203)
As noted in the last inspection floors throughout facility continue to chip/peel. Repaint/Reseal damaged flooring (0202, 0204) Walls throughout the cat colony room are not impervious to moisture. Add material such as FRP to these surfaces to insure they are impervious to moisture (0202, 0204)

Degrading concrete at the old loading dock is an issue that will need to be addressed in the near future.

Approval is contingent that these issues are continued to be addressed and that the facility provides a time line and plan to correct the inadequacies.
Continue the good work that staff is doing to improve the facility.

Will reinspect in 90 days
