## Narrative Explanation, continued

0204- Prevent contact with wood- There is damaged wood trim and damaged wood doors in the large dog play area. Repair these areas as to prevent contact with wood

0204- Enclosures in sound repair- A metal filing cabinet and a metal pole that the dogs have access to have begun to rust. Repair these areas to keep the enclosures in sound repair.

The facility was clean and the dogs appeared content.

The facility has done a great job of addressing the areas that needed to have a material impervious to moisture added to them.

Keep up the great work moving forward.
