Narrative Explanation, continued

Inadequacies noted are-

0201- Housing in sound repair- Through out the facility metal sheeting used as a material impervious to moisture has an exposed edge. The edge is a potential cutting hazard to dogs in the facility.

0204-Access to wood- Dogs have access to wood doors, wood trim, a wooden staircase, and wood framing. Surfaces dogs come into contact with should be a material impervious to moisture and access to wood restricted. Wood is damaged noting dogs have direct access to it. (some areas have been replaced, continue throughout)

0204- Enclosures in sound repair- 4 Metal enclosures made from expanded metal have started to rust Enclosures should have rust abated to be in sound repair

The facility has been making upgrades to ensure that they are in compliance with the AWA and to ensure the health and safety of the dogs at the facility.

Paperwork checked was adequate and currently the facility is transferring to an online system for their records and agreements.

The facility was clean and there was no odor at the time of inspection.
