Narrative Explanation, if needed

No animals were scheduled for euthanasia at the time of inspection. Euthanasia area is organized and free of clutter and debris. Inadequacies noted include;

(0803)

(1) Euthanasia manual is lacking the following items;

(a) 2013 update for the AVMA Euthanasia Guidelines

(b) 2013 update for the HSUS Euthanasia Guidelines

I provided this facility with a link to be able to print these items in order to update this manual.

(c) After hours euthanasia methods

(d) Euthanasia methods if no CET is present

Update manual to include the aforementioned items.

(0418)

(2) Records available at the time of inspection indicate that facility is not properly documenting Ketamine/ Xylazine mixture for animals receiving sedation medication. All euthanasia drugs must be properly documented. Suggest that this facility review DEA requirements for the documentation of Ketamine. Properly document ketamine/xylazine as was discussed at the time of inspection.
