Narrative Explanation, continued

0203 - Outdoor kennel areas needs to fill dig holes, add gravel (must be 6 inches in depth) as well as remove any wooden surfaces that the animals my have access to (to include inside enclosure, around the perimeter of enclosures or on the grounds)

0203 - All primary enclosures located outside must have a covered top (majority of the enclosures outside do have tarps that are in good repair being used, however, a few kennels have no covering at all)

0207- Grounds must be kept neat, clean and organized; with no cleaning accessories being stored on the ground surface (if you wish to have storage outside, then items being used can be stored in a sealed container or on shelving that prevents insect/rodent infestation and prevents access from animals)

0207 - Currently owner has advised that she has no staffing or regular volunteers coming to help with animals. With 33 animals currently residing at this rescue, there is a need to add staff/regular volunteers to come and help clean, feed, and assist with general upkeep.

** Indoor kennel area: Storage needs to be addressed (no storing of item on top on enclosures) add shelving or sealed containers to store all laundry, and accessories. Also, indoor area should be swept/mopped daily, all laundry washed/dried and stored properly; no open bags of dog food (must be kept in a sealed container).

** Outdoor area was clean at time of inspection with no feces or odor. Indoor kennel area is being cleaned at time of inspection, with minimal odor. All animals appear to be in good health, active, and well groomed. Temperature of indoor kennel area at time of inspection is 64 degrees.

Re-inspect in 30 days.
