HIdeaway Kennels	Lynn Looper	Granite Falls	NC

Narrative Explanation

At the time of inspection cleaning is in progress.

Improvements from previous inspection include;

1) Concrete pads at the entrance to the outdoor play yards have been resealed. I do suggest applying sealant frequently to insure these surfaces remain impervious to moisture.

2) Water is no longer overflowing these concrete pads.

3) Walls have been repainted in the cattery (A).

4) Damaged beds have been removed

5) All food was stored in sealed containers

6) All enclosures that were used the previous day had been cleaned.

7) Floors have been sealed in the enclosures throughout the facility

8) Rodent feces has been removed and adequate prevention measures have been taken.

9) Clutter has been removed from the Barkley Square and Hound Hall.

Good work correcting these inadequacies from previous inspections!

Inadequacies noted at today's inspection include;

(0204)

1) Damaged wooden door frame was noted in the Cattery A.

2) Damaged wooden door frame was noted in "The Playroom" in the area of the specialty suites.

Replace/Recover damaged areas with a material that is impervious to moisture.

3) 2 cats were free roaming in the cattery A. This area has not been approved for free roaming cats due to the amount of wood, other surfaces that are not impervious to moisture, and the access the cats have to various

Narrative Explanation

miscellaneous items in this area. Cats should be housed in enclosures that have been approved for boarding/day care. Should you choose to rennovate this room for free roaming play please contact me for final inspection prior to use.

(0203)

1) Outdoor walkways throughout the entirety of the facility have not been sealed. One walkway outside the Hound Hall was soiled with feces indicating this area has recently been utilized. Keep all surfaces with which animals come into contact, impervious to moisture.

No other inadequacies were noted at the time of inspection. Overall this facility has worked diligently to correct inadequacies from previous inspections. I have suggested that this facility implement a schedule for maintenance at this facility in order to keep up the repairs and resealing projects.

Keep up the good work.
