Narrative Explanation

At the time of inspection cleaning is in progress. No sign of illness/injury was noted in the general population. Food is appropriately stored.

Inadequacies noted include;

(0204)

1) 17 cats were housed in one primary enclosure. No more than 12 cats are to be housed in one primary enclosure.

(19A 32.1 a)

5 records were noted in the November 2015 records for animals that were euthanized prior to the end of the 72 hours holding period. All of these animals were noted as 'injured' however these records are lacking proper documentation as to the nature of the injuries from the manager of this facility. These records include;

1) Intake Id # 30274790

2) Intake ID #302513703

3) Intake ID #30231913

4) Intake ID #30196687

5) Intake ID #30167458

I educated Shelter Director, Greg Greene, on the proper documentation requirements for any animal euthanized prior to the end of the 72 hour holding period due to injuries.

Repainting has recently been completed by shelter staff. All surfaces are impervious to moisture. Enclosures are in sound repair. Ventilation is well achieved with no odor detected upon entry. No other inadequacies were noted at the time of inspection.
