Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	Came out today to inspect this facility, they are doing a good job on cleaning and odor control. The outside play area we need to fix septic tank riser. This thing is made of concrete and has been chiped along riser & lid which could ~~get~~ become a hazard if a dog gets its head caught need to fix this. The daycare floor is becoming chipped up we need to repaint & reseal this area. Kennels V4, T19, T15, V3, T24, T7, V2, V1, T14, T13 The floor needs to be resealed & repainted, becoming chipped up. The entrance way back to kennel where dogs walk back to cages also needs to be resealed. Everything else looks great. They have lil of rock in play area good job and ventilation is working great. Time line to have septic riser fixed 30 days due to being a hazard. Time line to make an attempt to do painting & resealing will be 60 days be Back Last of October to view the improvements. Tracie put a cover over riser while more good job that will work. Add canigle in daycare form and add time for treatment sheet.
