Narrative Explanation

I performed an annual inspection today. The facility was clean. I did observe an odor while at the shelter. The manager advised when the facility was built there were no P Trap Drains installed and when it rains the gas smell develops. The smell is very strong on today's visit and it was raining. The other inadequacies I found is at some of the kennels walls will have to be repainted and the drains in the back kennel area also need to be repainted.

The records on the animals housed are with-in compliance.

There was no Euthanasia Inspection performed on today's inspection.
