Inspection date July 27, 2015

Name of business	Name of owner
Pettsboro	Antoinette Thomas

Street address	City	NC	ZIP code
117 Elf Way	Pittsboro		

Narrative Explanation, continued

Continued:

0203} Ratios is deemed not acceptable today due to 6-9 small dogs at play without supervision. Also noted 30 dogs at play in the owners living room (attached to the boarding kennel), owner advised that all animals in this room except 4 are her personal pets. The other 4 are dogs she is fostering for various rescue groups: mainly the Goathouse rescue. Owner was able to produce up to date rabies/veterinary records in her name for all her animals with the exception of Ceasar & Layla. Advised owner to have these records updated by next inspection.

0102} Medication logs is not acceptable due to no logs currently being kept. At the owner admission, they did have the logs, and then no workers were filling them out so they quit using them. I reviewed a blank medication log, and the log is to AWA Regulations - use this long consistently for every medication (prescription or over the counter) given to animals. Also medication that is brought in by the owners and not in the prescription bottle needs to include a label with that medication for the drug name, strength, dose, and prescribing veterinarian.

I also viewed random records for 4 boarders today: Buddy, Mr. Pickles, Raleigh, and Chester. All vaccine records are maintained electronically, and the boarding contract on paper. Mr. Pickles did not have vaccinations up to date (owner checked out this dog while inspection was ongoing).

* It is noted that the owner has recently moved into a newly constructed office, and not all records are stored or filed at this time.

I have advised the owner to be sure that all her personal dogs records are up to date; to be sure all animals she is currently fostering has proper records with them (also discussed the need to cap foster animals to less than 9, only 4 here today); advised to complete and maintain medication logs.

* Also noted that the main housing building for boarding is in need of pressure washing due to algea/dirt build up on siding.

* Advised the owner to complete application and PVC, and submit to our office ASAP.

Annual inspection is disapproved due to records. Complete all records as discussed today - reinspection will take place in 60 days.
