Narrative Explanation

I performed an Annual inspection at this facility today.

I noted the following items need to be corrected:

1. .0204 Primary Enclosures / Prevent contact with wood - I noted there are wood gate supports on the end kennel of rows 1, 2, 3, 4 and quarantine row that are chewed. These must be replaced. I discussed with the director the need to cover the replaced wood with a material the dogs cannot chew.

2. .0101 Records / Origin / Disposition - I noted in run #30 2 adult dogs were listed on the same impound ticket. There should be only one animal per impound ticket. I advised the director to work with the employees on improving the records.

Comments:

I noted the shelter was clean and there were no visible signs of illness or injury noted.

I noted there were dogs due Rabies vaccine. I was advised by the director the veterinarian for the shelter is scheduled to come to the shelter this afternoon to update all dogs and cats eligible for Rabies vaccine. I am requesting the shelter to e mail me conformation of this. At this time the shelter is working toward getting a CRV at the shelter.

The director advised the shelter is getting a new software system. The director advised the shelter is planning to create an outdoor exercise area for the dogs. Long term care was discussed today.

This facility is given 30 calendar days to correct the above items. I will return at some point in time to perform a follow up inspection.
