Narrative Explanation, continued

I noted the following new items on today's inspection need to be fixed:

1. .0201 Facilities / Housing in Sound Repair - I noted today there is a hole in the sheetrock wall on the right side in the hall way leading to the grooming room that needs to be repaired.

I noted there is water damage on the wall in the food prep area. I recommend using plastic board with sealed edges in this area since it is in contact with a lot of moisture / water.

I noted there is leak under the sink in the food prep area - sink on the left side of the area near the hall way door. Repair this leaking water pipe.

2. .0204 Primary Enclosures / Sound Repair - I noted in the Cindy Wing outdoor gate #1 and gate #9 need the rusted poles replaced.

Replace the broken guillotine cables in Cindy Wing indoor #1 & #10, repair the chain link on the gate of #5.

Also noted in the Cindy Wing indoor runs #'s 1, 2, 3, 4, 5, 6, 7 the bottom poles on the gates need to be replaced due to rust.

I noted the chain link is rusted on Cindy Wind #1 and needs to be replaced.

I noted in the Buddy Wing indoor kennel # 1 has rusted chain link that needs to be replaced.

3. .0207 Sanitation / Pest Control - I noted signs of pests behind the dry food containers in the food prep room. Remember to keep all "hidden" areas clean of dead pest and dust. Use pest control to keep all areas pest free.

I will perform a follow up inspection in 30 calendar days (10/29/15).
