Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
7) 8)	Cat Enclosures - # 02 NCAC 52J .0204 (f) Each feline older than 6 months housed in any primary enclosure shall be provided a minimum of four square feet of floor space which may include elevated resting surfaces. Each feline younger than 6 months shall be provided 1.5 square feet. Not more than 12 cats shall be housed in the same primary enclosure. None of the cat enclosures have any elevated resting surfaces - this creates a space inadequacy. The cat enclosures at this shelter are metal and show enough corroding that the county should address the issue of either replacing them or having them coated in a material that is easier to clean and disinfect. They must have some type of elevated resting surface as well as a litter pan.	
31)	One Kitten - Injured right eye - Housed since 7-~~19~~ 21-08 with a mixed group of kittens. No veterinary care has been provided. Unless an animal is being held to be in compliance with a local or state law, that sick, diseased, injured, lame or blind dog or cat shall be provided vet. care or be euthanized. # 02 NCAC 52J .0210 (C)	
	Comments: Temperature was 70° at 9:00 AM. Live and dead roaches were seen - attendant stated pest control come out on a regular basis. Remember to provide resting platforms for all dogs and cats. On records, all officers and staff should pay attention to getting a surrender signature and continue to be sure to get all origin and disposition details. Shelter was being cleaned when inspection began. Re-Inspect in 30 days.
