| 0303 Food & water during transport | Not Applicable | | 0304 Observation of animals | Not Applicable |

## Narrative Explanation, if needed

Annual inspection done today. Kennel Attendant Maddie Galloway in attendance.

Items in need of correction are as follows.

Kennel Area. 0204> Due to heavy canine traffic and cleaning/disinfecting protocols, inevitable wear is showing. This would be the galvanized fencing gate type doors that need to be repainted/resealed where rust is. Where the kennel walls meet with the floor, a good seal needs to be provided. Floors repainted/resealed.

|---|---|---|---|

## Narrative Explanation, continued

Kennels will need to be visually numbered.

Furnace/Electrical Area. 0207> All clutter needs to be removed from around the furnaces.

Sink Area. 0207> Hot water heater is in this space. Noted bubbled rust around the bottom and on the backside. Suggest they have a professional look at this for safety precautions.

Dirty laundry needs to be in a covered container.

There is a dishwasher that I am told is being replaced. There is a wooden frame counter that surrounds it. The wood at the floor level is holding water and thus germs and bacteria. Suggest total removal or replacing with a product that is impervious to moisture.

I am also told that the owner is aware of much of this and plans to make changes/corrections are in progress. All animals on the premises today appear happy, healthy and injury free. Paperwork is within compliance. I am very pleased with the facility and how well it is maintained. I will follow up on my concerns in or around 60 days.
