Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	Today's inspection is in regard to a Complaint filed by Jacquetta Montgomery who Purchased a Pit Bull Puppy that got sick and was put down on June 12, 2008 at an animal shelter. Ms. Montgomery Purchased the puppy on 5-30-08. Aqua-Rama administered Distemper/Parvo (DHPPV) vaccine and Panacur/Nemex wormer on 5-25-08. Ms. Redline stated none of the puppies have shown any signs of any illness. There has been some diarrhea but it seemed to be the change in diet than worms or a virus. They have not had any problems with sick puppies or kittens according to management. The paperwork showed this puppy was sold without a warranty but mangement stated she had given Ms. Montgomery her cell phone number in case there were questions or problems. According to Ms. Redline, no one has contacted the store in regard this puppy. Today, no visible illness has been noted. All records have been examined on each dog + cat in the store and they show the vaccine and worm dates for each. The kennel is clean, odor free, temperature is in range (50°-85°). It has been discussed with mangement, the quarantine period for new puppies and kittens between intake, vaccination/worming and presentation for sale. Suggest 7-10 day q.t. period.
