LICENSE #: 14
TYPE FACILITY: Animal Shelter (Private/Public) ☒ Boarding Kennel ☐ Pet Shop ☐ Public Auction ☐
BUSINESS NAME: Cumberland Co. An. Shelter
OWNER:
ADDRESS: Cont.
TELEPHONE: (_____)_____-_____

Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
7)	Run #24 - Pit Bull Chewed a large hole in the Kennel wall. Hole is Covered with wire. Dog was not moved to another run because of it Chewing another hole. Management has been notified as well as the Company that manufactured the Kennels. The dog is a protective custody dog and is at AC for a long term. Discussed the need to provide Sturdier Kennel material for housing such aggressive type dogs. Bonding Rooms - Cat scratching posts must be removed as these are difficult to Completely disinfect and sanitize between cats.	
20)	Food Storage - all bags of un-open dry food must be stored up off the floor - such as a pallet. Spilled food must be kept Cleaned up to avoid insect/vermin attraction.	
25)	Medical Log (daily meds) - Medical Log is being Kept but there is a need to be more specific in the medicine dosage - mg. or cc's - and to include the persons initals who administer the medication.	
23) 31)	K-9 Isolation - It has been noted that 2 dogs in isolation are injured and not given any veterinary Care. The manager stated that if an animal does not have a micro Chip or a Rabies tag and no owner claims the animal, that their budget will not allow them to seek veterinary Care for the animal. They are held for the required 72 hours and then put down. They are put down sooner if the injuries are life threatening.	
	It is noted that resting surfaces are withheld from some of the protective custody dogs because they are Chewing them and the manager is afraid of intestinal damage. The manager stated they were having some problems with Parvo, Kennel cough and herpes viruses. The facility appears clean, no odors, records of origin/disposition are in order. Remember to use schredded paper in litter pans and dogs should not be in run while being hosed.	
	Re-Inspect in 30 days.
