Cont.

Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	Items addressed since last inspection:	
	1- Inside Kennels - the damaged wood has all been removed and gate steps are of PVC now.	
	2- All Chain link issues have now been addressed.	
	3. There is now 1 house per dog.	
	11) Waste Disposal - Areas behind outside Kennels and between front and rear Kennels - These areas have gravel for drainage - there is hair, some feces and leaves in these gravel areas. The area behind the Kennels appears to have a drainage problem as it is very wet today. Shelter needs to keep the graveled areas cleaned out better and may need to lower the gravel to aide in drainage or consider another means such as a concrete trough instead of using gravel. All cracks in the Kennel concrete must be kept sealed which aides in good sanitation.	
	20) Open bags of dry food and treats were found - keep open food in a closed container. This was addressed during the inspection.	
	Comments:	
	Discussed the upcoming need to paint the inside Kennels. Shelter manager stated they were already looking into this.
