Inspection Category	Result		Inspection Category	Result
0303 Food & water during transport	Acceptable		0304 Observation of animals	Acceptable

Narrative Explanation, if needed

Cabinet doors in both cat rooms are damaged from chewing/scratching by the cats housed in the room. This has been an ongoing problem. Cabinet doors and drawers need to be pulled out and covered with FRP board or other solid material impervious to moisture. Being that cat numbers are so high there are cats being housed in the play room. The bottom cabinets need to be blocked off to prevent damage to these doors and drawers also. Paint has been touched up on floors throughout kennels. Seams at the concrete floor and cement blocks need to be caulked as needed to fill in cracked areas. Overall facility was clean and odor free. We discussed the changes from the SB626 and they have changed the forms to reflect these changes during my inspection.
