Cedar Farms	Tony Montieth	Mocksville	NC

Narrative Explanation

New inspection performed for licensing. Main building is complete with the exception of chain length to separate the kennels. Therefore, dogs are housed in crates at this time. Dogs are let out no more than 10 at a time in outside play area that is concrete. Facility has ample lighting with lights and natural lighting from the array of windows on the end. Heating and cooling unit is installed as well as hot/cold water. Temperature was in ambient range at 69 degrees. All food is contained in sealed containers. Dishwasher is available for sanitation of dishes. Larger grass play yard has some drainage issues at this time making it impossible to grow grass in high traffic areas at the entrance way. Plans are to add gravel to this area. Until this is completed dogs are kept from this area.

Discussed record keeping to ensure that for all dogs origin of animals, description (including species, age, sex, breed and color markings), disposition, record of veterinary care and signed statement that dog has not bitten anyone in the last 10 days. All records at this time are kept digitally.

Overall nice, clean facility. Dogs all appear healthy, content and well cared for.
