Narrative Explanation, continued

.0207 Sanitation / Method of Sanitation - It was found today that runs are being hosed while occupied by dogs - 4 dogs were seen wet and shaking. It was noted that all runs were occupied today and there were no runs available to rotate dogs into while hosing / cleaning is being done. Advised management to create a kennel in the sally port area to place dogs while their kennel is being cleaned. Hosing of an occupied kennel is unacceptable.

Comments:

Cleaning was ongoing during this inspection.
Records were examined and found adequate.
Transportation units were inspected and found in good repair.
Chain link is being maintained.
Resting surfaces were provided for all the dogs.
Advised management to provide resting surfaces for the new / used cages in the cat room if they are used to house cats or puppies. At present they are used to transfer cats while their cage is being cleaned.
Manager discussed to possibility of creating separate cat rooms - adoptable and feral. Advised that a separate cat isolation room would be beneficial in controlling feline viruses.

Follow-up inspection in 30 calendar days - 7/8/13.
