Narrative Explanation

Annual inspection today with Lead ACO Joe Smith, ACO Emily Jackson and Shelter Attendant Ashton Kanniard all in attendance.

Items of concern are as follows:

1. 0201> Sink pipe leaking. Plumber has been contacted.

2. 0201> Ceilings in kennel areas have what appears to be exposed mold. These will all require a good deep cleaning and repaint/reseal.

3. 0204> Kennels are in need of repaint/reseal. This is to include the galvanized fencing that is part of each enclosure. Exposed rust is the issue here.

4. 0207> Rodent droppings and destruction of anything cardboard, paper or cloth is evident in the back freezer room. Staff is aware and taking steps to make this correction.

5. 0207> The refrigerator that holds animal medications and the freezer in the back are showing signs of rust. These will require sanding down of the surfaces and repainting. The rubber seal on the refrigerator door has what appears to be black mold spores. Corrective measures here are required.

6. 19A-32.1> A few of the forms that the staff is utilizing are in need of re-wording/ re-organizing. This is being done at this time.

Dogs and cats on the premises appear happy and healthy. The staff here continue to go out of their way to keep this older facility in compliance with the AWA.

I have given a copy of the 626 rule to all 3 employees and have went through it with them. Each has acknowledged that they understand it.

I will continue to work with the shelter to not only assist them in any concerns and questions that they have now but with any future issues as well.

I will return in or around the next 45 days to follow up.
