Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	I performed a follow-up a follow-up inspection today. On the 9/3/08, inspection I addressed inadequacies to be corrected. The county is in the process of making the following corrections.	
	#1-#4 The cracks in the kennel floor and walls are now being sealed.	
	#7 The county is in the process of installing plexiglas in between the cages. The cats had nose to nose contact.	
	#9 The shelter now has thermometers in the kennel to help keep track of the temperature	
	The county has completed the purchase of land behind the shelter. The goal is to correct the drainage issue in the shelter. I understand the county is looking at installing a septic tank to replace the current septic tank now being utilized.	
	The county has also addressed the fly problem by installing fly traps.	
	The doors leading into each kennel is in the process of being replaced. The county needs to make sure they cover the doors with material impervious to moisture.	
	I am conditionally approving the shelter today. I will perform a follow-up in 30 days to ensure the above issues have been corrected.
