Narrative Explanation, if needed

Annual inspection performed. Overall the enclosures were clean. All food and water receptacles were in good repair. (0204) At last inspection I noted that there were plastic shelves in place for resting surfaces that were damaged/chewed. Some of these shelves are still in place and are showing the same wear and tear. These need to be replaced as they become damaged. The bottom racks of the kennels where paint is chipping must be painted. In kennel #18 there is some damage to the bottom left corner exposing the wood. This needs to be covered immediately. I will follow up on kennel 18, the shelving and the painting of the grates after 60 days.
