Narrative Explanation, if needed

Annual inspection performed. Overall facility was clean and odor free. Temperature was in ambient range in all boarding areas. Inadequacies are as follows: (0204) paint is beginning to chip off of cement block walls in large dog enclosures and back of small dog kennels need to be recaulked as needed where wall boards and floors meet. One outside kennel has damaged fencing but this has been marked with "Do not Use" sign until repaired. At the time of inspection there were 2 greyhounds that were missing rabies vaccination and 1 dog that the rabies had ran out in September. Confirm that rabies vaccinations are current on every animal before the owner departs
