Narrative Explanation, if needed

Annual inspection today. Owner Robin Isbell in attendance. Items in need of correction are as follows.

1. Cat Room. 0204> These cages have wire type doors. They are showing rust. These will require painting/sealing.

2. Dog Kennels. 0204> The kennels in this space are comprised of galvanized fencing, cinder block walls, concrete flooring and metal cross contamination barriers.

a. Fencing is showing rust. Repainting/sealing needed here.

b. Cinder block walls in the kennel space have peeling paint. Repaint/reseal.

c. Cross contamination barriers also showing signs of rust. Repaint/reseal.

Narrative Explanation, continued

d. The entire kennel area flooring is in need of repaint/reseal due to chipped and peeling paint. This is to include the primary enclosures floors. A seal of some sort will need to be applied where the wall meets with the floor. This is to be done to the circumference of the rooms.

3. Doors and Frames. 0207> The doors throughout the kennel area to the outside are metal. Rust is showing and will need to be addressed. Suggest kick plates to bottom of all the doors that are exposed to the elements and cleaning/water products. The door frame on the kennel side of the door that connects to the front office is made from wood has been scratched and deeply gouged. This frame will need to be repaired or replaced.

4. Outside of Building. 0207> This facility is made of metal. Around and at the bottom it is heavily rusted. Owner is aware and will be making plans for this correction.

5. Play/Exercise areas. 0207> Due to canine traffic in these areas near the fence line, the owner has begun placing concrete pavers. The side yard has been fenced off while trying to establish grass.

Paperwork, as it pertains to a boarding kennel, is within compliance. All animals on the premises today appear happy, healthy and injury free.

This facility is very well maintained and odor free. My items of concern come with not only the age of the building but the everyday proper cleaning and disinfecting that is done.

I will return in or around 60 days to check on projects process.
