Rainbow Animal Rescue	Edna Crouch / President	Halifax	NC

Narrative Explanation

For this annual/follow up inspection, President Edna Crouch and Treasurer/Intake Coordinator Jackie Stanley are in attendance.

Items from previous inspection corrections are as follows:

Reception Area.

1. 0201> Ceiling vent is clean, has a new filter and is now on a cleaning regimen.

Laundry/Isolation Room.

1. 0201> The cabinet has been cleaned out and organized.

Cat/Puppy Room.

1. 0204> The floor has been repainted.
2. 0204> The seal to the circumference of the room has been added.

Dog Kennels.

1. 0204> The repainting has been done to the walkway, run floors and walls. There are areas that have already begun to peel. With this in mind, they have discussed other avenues. Implementation will begin again shortly and hopes are high for this time to be successful.
2. 0204> The seal inside/outside of the primary enclosures has been completed.
3. 0204> There now are actual pvc dog beds in each kennel. The orange grates are being re purposed by cutting them down and modifying them to fit both the in floor drains that reside in each kennel. Fabulous idea that is indeed in compliance .

Rainbow Animal Rescue	Edna Crouch / President	Halifax	NC

Narrative Explanation

Outside Pens.

1. 0207> The electrical wire has been removed.

2. 0203> Gravel has been added to the back of the 3 run enclosure.

3. 0204> Orange grates have been removed.

4. 0204> The gate doors on the 3 enclosures have been addressed with the suggestion of the pavers.

5. 0207> The rusted burn barrel has been removed.

Outside Storage Sheds and Building.

1. 0207> Cleaning and organization of the 2 sheds is in progress.

2. 0201> Loose underpinning has been repaired.

3. 0201> Globe covers to outside lights have been installed.

All canines on the premise appear happy, healthy and injury free. Monitoring of the temperatures in the building have been well with in limits of below 85 degrees. This has been achieved by a portable free standing ac unit.

Care and compassion for the animals here is evident. I find this to be true for the building as well. For it is clean and free of odor.

I will return in or around 45 days to check on progress with the drain coverings. At that time we will also discuss the need for cross contamination barriers with in the outside portions of the primary enclosures.

☐ check here if a euthanasia inspection form is attached
