Cont.

Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	Follow-up from 4-8-08	
	Comments on Past inadequacies:	
	2) Ventilation & Temperature - Today temperature in K-9 Kennel area was 78° at 9:50 Am. Manager Carl Youngue stated the staff was misting the runs periodically to help keep the temperatures within range	
	7) Cross Contamination issues have been corrected. All runs have barriers that are 2 blocks high and the quarantine pens are 5 blocks high. These blocks have been sealed as well as the Kennel floors.	
	Comments on other improvements:	
	The automatic water systems have been removed and replaced with stainless buckets - better sanitation.	
	The weilded wire cat cages have been painted - better sanitation.	
	The staff stated the occurance of parvo had been less since the cross contamination walls had been installed.	
	Dog drop off is now through the back of the Kennel - better safety for the visiting public.	
	Today's inspection is Conditionally Approved contingent upon moving into a new facility. Move date is unknown at present. I receive email updates from Dennis Boxley, Public Bldgs. of Hoke Co. concerning the new shelter.	
	The old shelter would need a means to keep the temperature within 50°-85°. The yards would need to be redone - holes filled - general good maintain. Shelter needs more storage area.	
	Re-Inspect in 60 days.
