Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	They have 19 dogs in rescue here, boarders 3 dogs. They have put shower board on walls through out the kennel except for bathroom still need to cover this area. When you have all the wire cages full of dogs side by side you need to slide a sheet of shower board in between rows to keep crosscontamination down. You can use plexiglass if wanted to. If you are going to stack a dog on top of one these wire cages you need to put a sheet of shower board under neath the cage on top. If you use a solid back, side cage you shouldn't have to do this. Wire cages allows for waste to fall below! Play area by put straw down but it blew away and this area needs major attention. Make sure you scoop all waste up in this area. I saw some waste in corners of play area. Good job on working on the issues that we had, still need to keep up the improvements	
	I will be back May 1, 2008 to see how play area looks and see other improvements
