Narrative Explanation, if needed

At the time of inspection (11:30 am) cleaning in the "puppy palace" was in progress. Suggest increase ventilation in puppy palace as was discussed at the time of inspection. 3 cats were available for sell. 2 cats lacked proof of rabies vaccination. Animals were not issued a name or a number making it nearly impossible to track the origination/ disposition. Thermometer was not present in the "puppy palace" however ambient temperature was ok. 1 kitten was found with a probable eye infection and needs veterinary care asap. Kitten was removed from the sales floor during inspection and placed into isolation. Isolation was not fully intact at the time of inspection. Owner will have 24 hrs from the time of inspection to provide veterinary information for the kitten in question. Build up of debris in the facility is extensive and also needs addressing. Will return in 30 days for re-inspect.

☐ check here if additional pages of narrative are attached

☐ check here if a euthanasia inspection form is attached
