Narrative Explanation, if needed

A complaint came in to Iredell County Animal Control concerning two sick ferrets that were recently adopted from this facility. Informed Iredell A/C that we do not inspect pocket pets but I would do a random inspection to check on the welfare of the kittens that are housed in the same room. At the time of my inspection there were 4 kittens between 3-4 months old in one cage. There was only one litter pan available. I asked the owner to separate them into two cages so that there would be adequate room for them and correct cat/litter pan ratio. The kittens are healthy and current on their rabies vaccination as of 1/7/13. There were no other cats or dogs for sale at the facility. Cage and litter box had just been cleaned before my arrival. Water and food receptacles were clean and full.
