Narrative Explanation, if needed

Annual inspection performed. One litter of 7 puppies with dam are part of the total number count. Crates inside the house are clean. Records checked were current. The following inadequacies were noted:

.0206 Access to water should be available at all times. Water is available in all outside play areas but was not in crates at time of inspection.

.0207 Sanitation is lacking in outside building. Crates should be pulled out on a consistent basis and floors should be cleaned around and under the crates daily. (owner recently had shoulder surgery and cannot move the crates as easily)

New building still under construction and is not being utilized. This rescue is no longer rescuing/adopting cats.
