0303 Food & water during transport	Not Applicable		0304 Observation of animals	Not Applicable

Narrative Explanation, if needed

New facility just recently built. Kennels have block walls to prevent cross contamination. Trough drains are located at the back of the kennels with a flush system installed. Concrete floors have been sealed with clear sealant. Outside play yards have been seeded and grass has began to grow. Until grass is established dogs will need to be walked or supervised to keep in grassy area. Outside block walls on building will be painted/sealed before boarders are taken in. Paperwork is in place for sign in/sign-out purposes along with thorough contracts and med charts. Facility appears to be functional and looks great. OK to license.
