

The College of Agriculture and Life Sciences

The College of Agriculture and Life Sciences at North Carolina State University provides knowledge and technology that improve the economy, environment and quality of life for the citizens of North Carolina. In the classroom, we equip students for productive careers. Through research, we find solutions and develop systems with economic, environmental and social value. Our extension programs are helping people use knowledge to enhance their lives and livelihoods.

Relationships with many partners enhance the quality and productivity of our research, teaching and extension programs. We extend our appreciation to the field day partners and participants.

9:00 am-12:10 pm Educational Sessions

**Back by Popular Demand – All Sessions will
be Outside!**

Session Run Time: 50-minute class,
10-minute break, repeat.

So you want to go organic? *

This session will present results of work
done with organic herbicides on broadleaf
weeds in landscape beds and in turfgrass.

It's hot in the city * †

In this session, you will learn about
research that explores how city tempera-
tures can either encourage or discourage
insect problems.

Is this or that sustainable? ◇ †

Presenters will share information regard-
ing research that focuses on the impor-
tance of site preparation, use of native
and introduced plants and landscape de-
sign preferences. You will have a chance
to share your opinions!

12:10 pm – Equipment Demo from Right-of-Way Equipment

12:40 pm – Hot Dog Lunch!

1.0 Hour CEU Credits

* pesticide categories: L N D X

◇ 1.0 CLT
