Narrative Explanation, if needed

Annual inspection performed today. There were 4 kittens up for adoption. Enclosure was clean with clean, filled water & food bowls. Kittens looked healthy. (0101 & 0103) When asked to see paperwork for the kittens on the floor the owner had a problem matching up where the kittens came from. There needs to be a reference number on the kittens card that matches a number in the log book. There was no disposition paperwork for any of the animals that had been sold or returned to owner since my last visit in January. I explained to Mrs. Goodrum that paperwork has to be completed when animal exits and has to include the following: name and address of new

Narrative Explanation, continued

owner and the date of the transaction. There were no records on medications (dewormer and/or vaccinations) for the animals on the floor or previous animals. NCAC 52J.0101 states, "record of veterinary care including treatments, immunization and date, time, description of medication (including name and dosage), and initials of person administering any product or procedure". Records shall be maintained for year after the animal is released/adopted. (0207) There is a large amount of clutter behind the counter at the register causing problems finding records. I recommended that this area be cleaned out to allow a better filing system and a cleaner environment. This problem was also noted on previous inspection. Will follow up on paperwork in 30 days.
