0303 Food & water during transport	Not Applicable		0304 Observation of animals	Acceptable

Narrative Explanation, if needed

202- Room that is used for euthanasia, treatments and bathing of animals- walls need to be covered with material impervious to moisture so that this area can be readily sanitized as well as room beside that is used for isolation.204 Floors throughout facility (primary enclosures) need to be resealed inside and out. Paint is peeling bad and holding moisture and bacteria. This was noted in last inspection and needs to be addressed ASAP. 204- Enclosures 2 and 15 on the inside and 6, 7, and 12 on the outside- rails of chain link gates are becoming rusted and need to be repaired or replaced. Re-inspect within 90 days.

☐ check here if additional pages of narrative are attached

☐ check here if a euthanasia inspection form is attached
