Narrative Explanation, if needed

Purpose of today's visit is a follow up inspection for the facilities disapproved inspection that took place on 2-1-13. At that time it was noted that approval would be contingent on addressing the facilities long-term cross contamination issue within their primary enclosures as well as adding additional employment to substantially care for all animals and oversee day to day operations.

At my visit today, primary enclosures are still operating in the same manner, allowing animal waste to flow freely between enclosures. No additional staff have been added.
