Cont.

Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	30 day follow-up from 12.10.07 - 3rd disapproved inspection.	
	Comments from 12.10-07 inspection:	
	Cat Trees - a compromise was reached on the cat trees. Since this is a no-kill shelter, the cat trees will be allowed as long as the group of cats remain the same. New cats mean a new cat tree. Cat trees can harbor viruses and are very difficult to clean and sanitize so therefore are not reccommended normally.	
	Routine waste disposal in outdoor yards are now twice a day.	
18)	The small kennel in the exercise yard has had gravel put in, some of the holes in the yards have been filled in but more work is needed such as adding gravel to bare dirt areas and keeping holes filled in.	
7)	The kennels w/damaged chain link and pipes have not been fixed - attached is an email pertaining to a list of repairs for the repairman. The window lodge in the cat room (left) still needs attention.	
9)	Thermometers are not avalable to measure ambient temperature (50°-85°). Reccommend placing thermometers in various areas at dog level to monitor temperature.	
7)	Wood Baby Gate - Must be removed - may replace w/non-wood type. Wire panel at front gate must be removed to prevent injury.	
	Plans are for a NEW facility within the next year.	
	Re-Inspection - 30 days.
